Faith Okogbo

My portfolio

PROFILE

I am a detail-oriented, curious and result-driven; skilled front-end developer with over 2 years of experience in building web applications. My expertise lies in utilizing popular front-end frameworks and technologies such as React Js, Vue Js, etc to create responsive, feature-rich and scalable interfaces for web applications.

EDUCATION

BSC. COMPUTER SCIENCE

University Of Benin

2016 - 2022

SKILLS

CORE

HTML, JavaScript/TypeScript, CSS/SCSS.

FRAMEWORKS

React Js, Next Js, Gatsby Js, Vue Js, Node Js, Tailwind.

TOOLS

Redux, Context API, GraphQL, Git, Bitbucket, Netlify, Jira

EXPERIENCE

SOFTWARE ENGINEER - CONTRACT

AFEX Nigeria

September 2022 - Present

- Developed and maintained websites using React Js, Typescript, Tailwind and Context API.
- Collaborated with a team of developers to implement accessible applications with responsive design and ensure cross-browser compatibility.
- Worked closely with designers, product managers and stakeholders to ensure the web development process was aligned with project goals and timelines.

WEB DEVELOPER - INTERNSHIP

Triune Built Tech Solutions

July 2022 - September 2022

- Contributed to the development process by testing websites across multiple browsers and devices.
- Assisted in debugging and resolving technical issues with websites.
- Gained hands-on experience in Agile development methodologies and project management
